

TEACHING TOPICS

Our goal with the RMS is for you to grow daily in your understanding of who God is and the extent of his love for you. Everything we can give in our desire to reach others with the Gospel comes from this understanding.

Along the way, we will develop a more Jesus-like character, learn to listen to God's voice and cooperate with His Holy Spirit in every situation.

We are confident that all the great things we want to do for God are only possible if, as international teams, we learn to live together in a servant-like way with compassion for each other and learn to value the diversity of His church.

Our classes and special services are designed to teach you these truths and help you apply them to your life. (More about our goals)¹
